

## GDPR Today

The HR Company understands the challenges that businesses face with the current General Data Protection Regulation (GDPR) now in effect as of the 25<sup>th</sup> of May, 2018, which affects all businesses in member states of the European Union, including the Republic of Ireland. Some of the consequential issues include the right of each European citizen and resident to amend, correct, challenge or remove personal data, which each business entity may have on the individual.

In addition, the consequences of failure to meet each specification of the GDPR may result in significant fines, up to four times the annual turnover of the business. Data security is a serious issue, and failure to update and correct data security practices within your organisation could be even more serious. Yet, integrating a new data security system can cost thousands and even millions - far too much for a small- or medium-size business!

## The Solution: CSR Readiness® Pro Edition

### Self-Assessment:

The self-assessment data security questionnaire provides the software with details about your specific needs.

### Remediation:

Generates remediation instructions, policies and best practices tailored to you, regarding compliance, security response planning and audit.

### Monitoring:

24/7 access to allow ongoing input and regular monitoring. Reactive components work to heal any breaches that do occur.

Because of the immense costs associated with GDPR, The HR Company partnered with CSR to offer you a reduced rate offer for the CSR Readiness® Pro Edition. It combines reactive and proactive features to secure your data. The HR Company believes CSR Readiness® will be a true benefit for not only your business, but your customers, vendors, and employees too. CSR Readiness® can help your business reduce the risk of a data breach and assist you in meeting mandated data protection requirements.

For more information regarding GDPR, the offerings of CSR, or what CSR Readiness can do for you, visit the GDPR section of our website at <https://thehrcompany.ie> or contact your account manager today.
